

Coffee table-Laser C

Assembly instructions

Holes made for pivots

Holes made for screws

1. For each set of legs we add a set assembly kit which includes:

- 10 pivots (double-threaded nuts)
- 20 screws
- 10 pieces of M6 screws
- 1 allen wrench

2. Remove the legs from the package.
3. To the holes made in the tabletop, apply the holes made in the leg and install the M6 screw into the pivot.
4. Tighten with an allen wrench (included in the package).
5. To strengthen the structure, you can additionally screw in screws (10 pieces per leg)
6. Turn the table over and it's ready

Cleaning and maintenance

Clean the table legs with a damp cloth.
Do not use caustic agents, scouring agents, bleach, alcohols and others of unknown purpose.
